Better room service

I wish that hotels are faster when I call them to ask for something like towels or in room dining

Clean rooms, comfortable beds, quiet space

More facilities in the hotel included in the stay

Hotels could improve the experience by providing more personalized service, maintaining excellent cleanliness, offering better amenities, and ensuring quick responses to guest requests. Comfortable rooms, good food, transparent pricing, and attention to small details would make the stay more enjoyable.

Something I get to choose about my stay

A personalized hotel experience would make me feel comfortable and welcome in the hotel.

My preferences are taken into account. Activities recommended accordingly. Food presented according to my preferences and dietary restrictions.
